## PEDIATRIC NURSING CERTIFICATION BOARD

---

### **Professional Resources for CPNP-PCs and PMHSs Supporting Child & Adolescent Mental Health**

[Indiana Behavioral Health Access Program for Youth](#). Indiana University School of Medicine's Department of Psychiatry. Pediatric primary care providers can access this program for guidance from psychiatric specialists.

[Maryland Behavioral Health Integration in Pediatric Primary Care](#). Provides free pediatric mental health support to primary and emergency care providers in addition to training webinars and resources.

[Massachusetts Child Psychiatric Access Program](#). Offers access to Licensed Behavioral Analysts, psychiatric consultation, and webinars. This program is free to all primary care providers.

[MC3 Michigan](#). This program offers support to outpatient healthcare providers in Michigan who manage patients with behavioral and mental health concerns. Statewide services include prescriber consultations, telepsychiatry evaluations, case consultation, school-based consultation, and emergency/crisis services consultation. Psychiatrists are on call at no charge. Monthly free CME modules are available.

[National Network of Child Psychiatry Access Programs](#) (NNCPAP). A membership organization with access programs for those treating mental health disorders in primary care in most [states](#). Participating states offer consultation, resources, and referral services. Some states offer additional training. Click on your state to find what is available to you.

[Project ECHO Cincinnati](#). University of Cincinnati Project Extension for Community Healthcare Outcomes (ECHO) includes knowledge-sharing through virtual clinics for primary care providers. Project ECHO links expert specialist teams at an academic hub with primary care clinicians and other healthcare professionals in local communities in a hub-and-spoke model. Sessions are held twice monthly.

[The REACH Institute](#). The Institute (Resource for Advancing Children's Mental Health) is national in scope and offers the [Patient-Centered Mental Health in Pediatric Primary Care](#) (PPP) program in addition to other educational opportunities for primary care providers managing pediatric mental health in the primary care setting.

[Seattle Children's Hospital Wyoming Partnership Access Line](#). Offers support to pediatric care providers caring for pediatric patients in Wyoming. Support includes medication adjustment or treatment and diagnostic clarification.
